

SAVE YOUR ENERGY

With financial incentives
for high-efficiency
equipment upgrades.

Direct Install Program for Small Business

Outdated equipment can drain your energy and your budget. Upgrading to high-efficiency equipment is easy, cost-effective, and impactful with the Elizabethtown Gas (ETG) Direct Install Program, which can help you:

- Reduce energy usage
- Lower utility bills and operating costs
- Strengthen your bottom line
- Increase comfort and productivity

Potential Natural Gas Equipment Upgrades

- HVAC systems
- Pipe insulation
- Water heating
- Hot water conservation devices
- Controls
- And more

Here's How to Get Started

Schedule a free, on-site energy assessment with an ETG authorized Direct Install Participating Contractor: elizabethtowngas.com/DI

Your Participating Contractor will identify energy-saving opportunities for your business. Better yet, we may cover up to 80% of project costs. With five-year, 0% APR financing and convenient on-bill repayment, the Direct Install Program makes upgrades affordable and hassle-free.

Your contractor will handle everything from assessment to installation, so you can Save Your Energy and focus on running your business.

Eligibility Requirements

You must be an existing ETG business customer on a non-residential rate code, with an average annual peak electrical demand of up to 300 kW or an average annual natural gas usage of up to 40,000 therms. Work must be performed by an ETG authorized Direct Install Participating Contractor. Some restrictions apply.

We'll cover
up to 80% of your
project cost.
